

Trusted Unbiased Third Party Reviews

Companies seeking a second opinion or validation of existing educational alignments can rely on EdGate to deliver unbiased, independent third-party reviews. Our dedicated team collaborates closely with your organization to ensure a comprehensive and rigorous assessment of existing alignments to state requirements, evaluating accuracy and validity through our proven methodology and extensive experience.

Other Valued Review Services

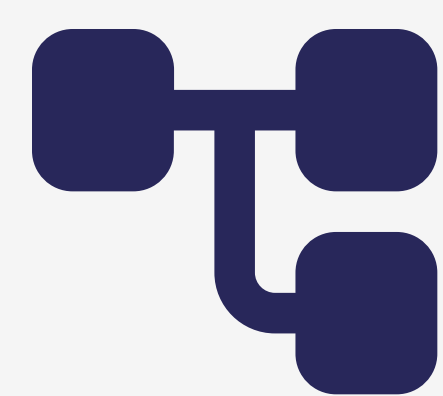

Standards Maintenance

Our skilled standards maintenance team is devoted to the continuous monitoring of state and national standards, guaranteeing that they are up-to-date and formatted correctly.

Content Alignment Experts

EdGate's content alignment team is comprised of highly qualified, former educators and subject matter experts. They are meticulously trained to identify the core learning concepts within educational standards.

Experience in Applying Rubrics

EdGate has extensive experience in applying rubrics for academic benchmarks, content tagging, and alignment. Our proven methods provide a robust foundation for ensuring accuracy.

Crosswalks for Alignment

We specialize in creating crosswalks to demonstrate alignment, making it easy to see how educational content correlates to desired standards.

The EdGate Difference

Our approach to alignment analysis is not based on simplistic language searches. Instead, we focus on the essential key concepts and learning experiences that each educational standard addresses.

Comprehensive Reporting

Upon completion of the course alignment evaluation, EdGate provides reports through the ExACT Reporting System outlining courses and educational materials that meet State Learning Standards, plus detailed rationale giving you a clear understanding of the validity of your educational content alignment.

State Education Departments' Assurance

State Education Departments can rest assured that all third-party findings from EdGate undergo thorough evaluation by our experienced reviewers at each grade level. We provide a letter of authorization with alignment statistics, verifying accuracy and confirming all content meets state requirements.

Documentation of EdGate's Qualifications

EdGate provides documentation of our qualifications, which are submitted alongside the results of our assessments to each State Department of Education.

At EdGate, we take pride in our role as an independent, trusted, and expert third-party reviewer for educational standards and content alignment.

ExACT: The world's most comprehensive standards alignment, visualization, and management system.

With millions of education and CTE standards at your fingertips, ExACT helps to ensure adoption of content, increase discoverability, identify new markets, and target learning needs. ExACT is leveraged by our subject matter expert team and is also available for client facing applications.
